

God's Creation

Written by: Jasmin Farid
St. George Coptic Church, Tampa, FL

Finally after God created everything, he created man. When God saw his creation and it was good, he created woman to be with man. As you know Adam and Eve were the first man and woman. The first commandment however was when God told Adam and Eve not to eat from the tree of knowledge of good and evil. Adam and Eve made the first sin as well. But the first murder was by Cain, Adam and Eve's son, which killed his brother Able.

God made man with clean spirit. But as you know now we are born with sin because of the sin of Adam and Eve. God created man with ears to hear, tongue to speak, eyes to see and so on. God also created man with a brain to think as well as to create things. God created the earth and other planets the sun, moon and so forth. But you see us now with many things such as homes and desirable items such as computers, video games, radios, etc. The brain of man (and woman) has made the world a big difference. A large percentage of human beings have discovered what their brain has led them to which has led to a large percentage of people

moving from poverty, to luxury.

The world that God created millions of years ago, has come a long way and changed a great deal. We have now reached 6 billion people and moving up.

From the first 2 people to all of us now, from the first sin to all of the sins now, from the first murder to all of them now, our world has become a totally different world and is still developing! We must not forget about God with all of this action around us, for he was the one created us!
