

Your Word is a Lamp to My Feet and a Light to My Path.

Psalm (119:105)
Written by Michael Ibrahim
St. Mina, Nashville, TN

“Your Word is a lamp to my feet...” here it means the Word of God. Of course the Word of God has many benefits to us as the children of God. The Word of God gives us the help we need in our hard times and temptations. The nature of the Word of God is to light us the way of life. The Word of God lightens our minds so we can know God better. The Word of God warn us from any danger we are about to fall into. The Word of God guides us to what we should or should not do in our lives. The Word of God, also, is a lamp we hold in our hands to lighten our way. The world is all dark and full of temptation. We, the children of God, should not take chances by living without the Word of God. And just like our minds need to be lightened, our feet also need a guide.

“...and a light to my path.” The Word of God is not only a light to our eyes to see with, it is a guide to our path. It is a guide who guides us to the right way. A lamp and a light...What is the difference between them?

There are many different between them. One of them is that the light represent the day time. The lamp represents the light in the night time. This means that the Word of God is our light day and night, light and dark. The Word of God gives us peace in our lives. Peace is very important in our life, because with peace we can think, act, work, and study successfully.

The night represents the hard times and the temptations. The light represents the good times and the successful times. Therefore we need the Word of God in all the times night and day, hard times and successful times.

Finally, we should carry the Word of God in our hands, hearts, and souls. It will protect us, it will keep us safe. Also, the Word of God is now available every where for every body. We can find it on line, on tapes, in books, magazines, and in the church. ✠

Announcement:
